

## **Venkat Charmalaya**

### **Centre For Advance Dermatology**

**Dr. Jayashree Venkataram (MBBS, DGO, FRCOG )**

#### **Our Philosophy- ethics and transparency policy Liposuction at *Venkat Charmalaya***

- 1. We explain all methods of liposuction to the patient-conventional Liposuction, tumescent liposuction, powered liposuction and laser lipolysis.**
- 2. We understand the need and requirement of the patient, and try to suit the method to the patient.**
- 3. After explaining, we leave it to the patient to decide and not enforce personal view on the patient. We help them to take the decision.**
- 4. We combine different modalities of treatment such as powered and laser for removing fat so that final results are satisfactory to the patient.**
- 5. We rely only on scientifically proven treatments. If there is no evidence for a treatment or evidence is minimal (such as cryolipolysis ) or if treatment is new ( laser lipolysis ) we mention this to the patient.**
- 6. We refuse to perform unapproved or banned treatments (such as mesotherapy, stem cells) even if patient asks for it.**
- 7. We never hype what we do. Our mantra is – Always under promise and over deliver. We insist on realistic expectations from patient and realistic achievements from us.**
- 8. We never indulge in any advertisements.**
- 9. We never exaggerate the amount of fat that can be removed. We remove what is optimal. Safety is our first and foremost concern.**
- 10. We depict transparently amount of fat removed during surgery.**
  - a. We show patients how much is fat removed.**
  - b. We are one of the few centers who give the details of amount of fat removed, in discharge slip.**
